

REGIONAL COMMUNICATIONS SYSTEM FAILSOFT TEST CHECK LIST

Name: _____

Agency: _____

Telephone Number: _____

Location: _____, Cross Street _____
(Street, Avenue, Boulevard)

Did the radio go into Failsoft? YES _____, NO _____

What talkgroup is the radio "dialed to"? _____

What radio is being used, property number or serial number and type (XTS 3000, etc.)?

_____, _____

If you think you are speaking with or hearing an agency or unit that (based on the Failsoft channel assignments) you should not be speaking with or hearing, please ask that agency or unit to provide you with his or her radio's property tag number or serial number.

_____, _____, _____

Notes: Any change to the radio while in Failsoft, such as turning scan on or off or changing talkgroups, will cause the radio to go to its control channel search and leave Failsoft. It may take several minutes to return to Failsoft!

Emergency buttons will work ONLY IF the unit is in range of a valid site on the RCS. The radio will leave the "Failsoft" site and send the emergency at the valid site.
